## **You Go, Lyrics**

I know, I know  
You go, you go

Looks like you made it  
I take the pictures off the wall  
I know you hated  
That stupid smile you got

But I still have it there on my mind  
And everything you're leaving far behind, far behind

Now all the love is gone, love is gone

**And I see you go, you go**  
**And then forever never come home, come home**  
**Said you leave for the better**  
**I know, I know**  
**But I just can't let you go, let you go oh oh**

I always felt it  
You'd be the one that got away  
We could have mended  
But that wouldn't have made you stay

And I still have you there on my mind  
And everything you're leaving far behind, far behind

Now I'm here all alone, all alone

**And I see you go, you go**  
**And then forever never come home, come home**  
**Said you leave for the better**  
**I know, I know**  
**But I just can't let you go, let you go oh oh**

I know, I know  
You go, you go

**And I see you go, you go**  
**And then forever never come home, come home**  
**Said you leave for the better**  
**I know, I know**

**But I just can't let you go, let you go oh oh**
