

NOTHING EVER CHANGES

Composition: Falco Luneau, Sytze Verbeek

Lyrics: Falco Luneau

Oh dear, this love is suffocating
Cause you breathe, the air that I need
Oh dear, I feel your faith is failing
Your way of loving is killing me killing me

Baby I can't move
Now it's getting too tight
And trouble already rises
With the morning light

Chorus I don't wanna be misunderstood
But nothing ever changes
You make me feel so insecure
Cause everything remains the same
We better let go and turn the page
Cause nothing ever changes

Oh dear, there is something amiss
It's so clear now you crossed the line
Oh dear, you never felt, you didn't notice
I keep pretending,
But I'm losing my mind

It's merely a matter of time
When we're gonna collide
Cause trouble already starts
With a morning fight

Chorus

A last time I turn around
Looking through the window pane
My breath fogs up the glass
Your face is slowly fading away

Chorus
